What is GymID?

At a Glance

GymID is an intelligent access system with facial recognition that prevents card sharing and unauthorized access in fitness studios. It ensures that only genuine, active members gain access – contactless, secure and available around the clock, with easy integration.

The Problems GymID Solves

Card chaos and key management, card sharing and misuse, and queues at check-in cost time, money and nerves – for you and your members. GymID replaces cards and keys with facial recognition or a QR code.

Key Features

- ✓ Member verification via facial recognition or QR code
- ✓ CRM integration with automatic data synchronization
- ✓ Automated check-in & check-out, ideal for 24/7 operation
- ✓ Dynamic activation of add-on modules based on membership type
- ✓ Management of aggregators and flexible day passes
- ✓ Real-time monitoring of utilization and studio activity

Up and Running in Three Steps

01 Contact & Needs Analysis

You send us your request and we discuss all requirements together.

02 Custom Quote

You receive a tailored quote backed by legally sound contracts.

03 Setup & Launch

We set everything up and ship the devices – done.

Good to Know

All prices listed are net, plus 19 % VAT. All biometric data is stored exclusively on your studio's local server – no cloud, no external servers.

Security & Privacy

GymID meets all GDPR requirements – members explicitly consent to data storage, and data can be deleted at any time. Biometric data stays exclusively local to the studio, no cloud, no external servers. Contracts are drafted by Dr. Geisler, Dr. Franke Attorneys at Law Partnership.

Frequently Asked Questions

Is Face-ID safe and GDPR compliant?

Yes. GymID meets all requirements of the General Data Protection Regulation. Members explicitly consent to data storage, and their data can be deleted at any time.

Where is the biometric data stored?

Exclusively on your studio's local server – no storage in a cloud or with external providers. This ensures maximum control and data security.

What does GymID cost?

Check-in from €200/month, Check-in & Check-out from €300/month (each net plus 19 % VAT). Additional modules cost €50/month and are only available in combination with Check-in & Check-out.

Can the system be expanded?

Yes, at any time: additional GymID readers, beverage vending, solarium, massage beds or extra access areas can be added as add-on modules whenever you need them.

How does setup work?

In three steps: contact & needs analysis, a custom quote backed by legally sound contracts, then setup and shipping of the devices, all handled by us.

Is the contract legally sound?

Yes, all contracts are drafted by Dr. Geisler, Dr. Franke Attorneys at Law Partnership, who are also available for advisory support during integration.

Do I need additional hardware?

Not necessarily – on request we supply matching access hardware such as a standard turnstile (€1,999 net one-time, excluding installation & shipping). Additional solutions are available on request.
